HOVETMANNO,

V BBO EMMIYS GRETHANYS.

RAT quidem tun, cum de chronologià Romanà quog, edendà mecum statuifsem, nobilifs. & amplifsime vir, confilir mei, genealogican etiam appendicem hanc illuftrando toti operi chronologico fubjicere: fed tædio operæ, quam corrigendis frequentifsimis hallucinationib. typothetarum, dum ex-

cuditur chronologia, aut me, aut meos præstere nimium diu oportebat, præsettim ingravescente corporis mei adversa valetudine, constitum illud mutavi, putavig, alii occassioni hanc rem esse reservandam. Post vero, aliud suadentib. amicis, & petente typographo, majorems, diligentiam pollicente, fretus post simum subsidiaria siliorum meorum operà sacienti pericult caus sivi ladoris bujus in officinà quos, fieri initium. Et quanquam haud diu post capti me paniteret, & nihilominus progressus aliquis seere tessudineus, ats interim nova dissentatas aut ossensiones ab ossensiona aliquoties existerent, qua ad abrumpendam molessissimam curam me impellerent, tamen intervenientib. rursum amicis, & ad absolvendum-captum me cohortantib. vix andem ad banc, quam vides, metam cextum pervenit. Continet verò appendix issa que nealogias succinstas præcipuorum in genere bumano resto-

rum, quorum tum in canone chronico universo, tum in chronologia rerum Romanarum fit mentio. Quib. inspedis, & ad ea, quæ tum istic, tum etiam libro commentariorum no/trorum quinto multis in locis notata funt, obiter relatis, omnia, qua in toto opere chronologico funt, fiunt dilucidiora, & consideratu gratiora. In tabulis autem bis genealogicis concinnandis (quod ante complures annos multo maxima ex parte est factum) boc præcipuum studium babui, ut quamcompendiosissime, & quam aptissimo ordine, qui ad diluciditatem quam maxime faceret, familias illustres ponerem ob oculos, & vitia, quæ autorib. aliis in hoc studii genere verfatis magno numero obrepfifse animadverteram, tollerem, & supervacanca quog, non pauca resecarem. Habemus enim ymahoyugaqou, qui immensa volumina bujus generis, velut farragines vastas confecerunt, magifá in eo claborarunt, ut quanplurima undiquag colletta & confarcinata congererent, quam ut congesta concinne digererent; multo minus, ut ab errorib. ea liberarent, o delectumeliorum av illustriorum facto diagrammatis planis ac perspicuis repræsentarent. Itaq corum lectori necesse est accidere sepe, ut velut in vasto & confuso spacio nec ordinem comprehendere, nec nexum progressumá videre facile possit. Prætered summa sequi in hac appendice volui, reliqua misa facere, præsertim in iis, quæ Romani imperii ruina sunt posteriora. Quapropter præter imperatorias familias, exceptis perpaucis, ad ista tempora pertinentes nullas heic exhibit, ne & prolixior fierem, appendicemque ultra appendicis modum extenderem, & me tædio nimio ab officinà typographica frangerem. In Jolis modo familiis Romanis, que stante populari libertate floruerunt, besi diutiuscule: quod præstantiæ istius civitatis, & historiæ præ cæteris profanaru gentium illustri, cognituq dignissimæ dedi. Quod etiam nisi nimium fastidiosis displiciturum non ese confido. Vale iterum vir nobilissime atg, amplissime, ac opellam hanc tuo quoque nomini inscriptam boni consule, & tuo pa-trocinio tuere. Groninga Nonis April. Iuliani, anno ere Christiane M DC XX.

t

VM primum de edendis his genealogiis deliberarem, benignè lector, obvertata fuere animo meo judicia hominum fastidiosorum, meq; aliquandiu ab editionis confilio absterruêre. Verum cum me ad alios referrem faltidii hujulmodi expertes, atq, cos numero longe plurimos effe reputarem, & amicorum quoq, benè sperare me jubentium hortatu incitarer, iaciendam mihi aleam effe putavi. Animus quidem in hac re mihi non fuit alius, quam qui effe debuit, ductus desiderio juvandi honesta studia, & historiz imprimis lumen aliquod affundendi: quod non ingratum fore ingeniis non morofis, nec καταΦρονητικούς existimavi. Initium autem διαγραμμά μει genealogicorum feci à Noha, ex cujus filis gentes & familia omnes toto orbe diffuse originem duxere Eorum porro Aayeappalus decem primis paginis repræfentata, funt gentis Iudaicæ: reliqua variarum gentium tum prophanarum tum Christianarum. In istis verò primum locum tenent gubernatores Orienris & minoris Afiz. Quos deinde excipiunt Graci, ac à Gracis orti Macedones & Epirotæ: & post hos Afri. Afros sequentur Romani, & qui libertate oppressa Romanorum præsederunt imperio, & Gotthi, qui reb. in Italia funt potiti. Tum subiuncti, qui extincto Occidentis imperio Byzanrium cum vicinis provinciis in Europa & Afia tenuerunt ulquad tempus, quo Turcæ Othomanni Byzantium occuparunt. Dehinc ipfi Turcæ Othomanni, & postremi reges Persidis usque ad nos. Denique exhibiti imperatores Occidentis, cui agiuna imperil restitutum à Carolo Magno, omnes sanguinis Germanici : & his adiecti reges Hictofolymitani ex Europæis orti , & reges Galliæ originis Saxonicæ ex Witikindo duce, Caroli Magni hoste, descendentes, qui agmen universum claudunt. Longius progredi vetuerunt me cause paulò ante indicata. Vale, lector, & favore tuo studium meum, fi mereri videar, profequere. Groningæ 111 Nonarum Aprilis Iuliani.
